Late Friday, July 16, 2021, a devastating house fire completely destroyed Kelly's family home. Thankfully, Kelly and her girls were not there at the time the fire broke out. She and Maddy have been left with nothing but what they had with them at the time of the fire and Cassy has lost every belonging she had at the home.

The contents are replaceable, but the emotional ties to this home are not. Kelly built the home herself, her vision of what she wanted for her girls to grow up in. Countless family functions were held at the home, and the memories of those times is what is going to help Kelly, Cassy and Maddy get through the tough days ahead.

Kelly would be the first one to give anything and everything she had to help those she loves the most and now she needs us.

They will be forever grateful for any donations received.

Kelly is resilient, and this event will never break her, just make her that much stronger.
